

A Service Dog (SD) is a living breathing creature who is your responsibility to care for as they care for you creating FUNctional independence with more options to your circle of life. Our dogs' health and wellbeing are vital to be a happy working Service Dog Team with that stated, your weight and height are part of the equation as we process your application.

- Light Mobility/Counterbalance- 30% of the handler's weight and height
- Medium Mobility/Counterbalance- 40% of the handler's weight and height
- Heavy Mobility And Bracing- 50% of the handler's weight and 40% of the handler's weight
